ABOUT ME

I am passionate about my new career path in IT, focused on **front-end development**.
Curious, eager to explore the new and learn.
Friendly, open-minded person. I have been working on finding my passions and talents and what I would enjoy as a career path and I found myself a great fit in IT, front-end development which I am excited about.

SOFTWARE SKILLS

Java Script – communication with server, components, data binding, data propagation, using API, routing, high-order functions, work with arrays, cycles, own DOM elements

React – communication with server, components, props mechanism, data binding, data propagation, using API, routing. Ability to create a working interactive website and design a logical component structure

HTML, CSS – use for coding good looking content and usage in combination with other technologies

Git, GitHub – cooperation in a team, work in branches, solving conflicts

Figma – constructing a functional wireframe and prototype. UI and UX design thinking and good eye for detail

WORK EXPERIENCE

- Front Office Manager
- Front Office Assistant
- Roommaster of the Escape Room

My work was always a lot about communication with clients and empathy, in order to provide them with quality service and good experience. My responsibility also was management of our reservation system and website.

The Chamber, Escape Room | 2020–2023

Occasional freelance cooperation as

- Translator English–Czech
- Graphic Designer
- Product and Event Photographer

Development of creative thinking and good eye for detail. Work procedure in order to fulfill clients needs. Photo and video editing in Adobe Lightroom and Premiere Pro.

LK SERVIS – GERnétic | 2018–today
